

JUMPABLE PLATE CARRIER (JPC)[™]

CRYE PRECISION[™]

BLC-042

FEATURES

1. Integrated triple mag pouch on front of carrier
2. Low-profile cummerbund attachment that provides maximum adjustability and allows for chest expansion
3. Built-in admin pouch in upper portion of front carrier (holds pistol mags, chem lights, maps, etc.)
4. High performance stretch material that allows for different thickness of plates
5. Padded ventilation on interior panels of vest for added comfort
6. Quick-attach side loops for add-on coverage
7. Durable anti-slip shoulder straps
8. Groin protection attachment point

DESIGN

The **JUMPABLE PLATE CARRIER[™] (JPC)** is a lightweight and minimal vest designed for maximum mobility, weight savings, and packability. At just over one pound for the entire carrier, the **JPC[™]** offers a variety of configuration options to suit an operator's needs in terms of load carriage and comfort. It features our Skeletal[™] Cummerbund System with our patent-pending integrated attachment system that allows pouches to be mounted on both the inside and outside of the cummerbund, shedding unnecessary weight and bulk while improving ventilation. It also features integrated admin and magazine pouches on the front of the carrier. Sizes are based on the size of the ballistic plate. For example, a large plate will fit best in a large **JPC[™]**. Made in the US from US materials.
